

Call for Papers for the Digital Humanities in the Nordic Countries 2019 (DHN2019) conference in Copenhagen, Denmark, 6–8 March 2019 <https://cst.dk/DHN2019/DHN2019.html>

The 4th conference of the association of Digital Humanities in the Nordic Countries (DHN) will be held at the University of Copenhagen March 6–8, 2019. The DHN conferences aim to provide an overview of research, education and communication about the interdisciplinary field of digital humanities. In 2019, the conference seeks to extend the scope of digital humanities research covered, both into new areas, as well as beyond the Nordic and Baltic countries.

Submissions of A) papers and B) workshops and tutorials are invited.

A) Call for papers

Submissions are invited in any aspect of research related to digital humanities. These include, but are not limited to:

- humanities research made possible through digital media, computer applications, AI and other emerging technologies;
- digital arts, digital games, new media, and related areas;
- digital cultural studies;
- computer applications in literary, linguistic, cultural, and historical studies;
- theoretical, social, multicultural and multilingual aspects of digital humanities

The following special themes are proposed:

1. NLP methods and resources for digital humanities: this theme comprises NLP rule-based or data-driven approaches as well as tools and data for processing and visualizing texts and/or speech
2. multimodality in digital humanities and digital arts: the theme covers inter alia research addressing various modalities and modi, such as speech and gestures in communication, texts and images, film, lyrics and music
3. digital pedagogy comprising tools and methods for e-learning as well as digital humanities in academic curricula and pedagogy
4. citizen science in digital humanities, crowdsourcing, open source: the theme also includes discussion of GDPR and other legal aspects

Two types of submission will be accepted:

1. Publication ready texts. Accepted papers will be submitted to the CEUR-WS proceedings series for publication in a citable form. Layout for the papers should follow the Springer LNCS templates in order to ensure a uniform look for the proceedings (<https://www.springer.com/gp/computer-science/lncs/conference-proceedings-guidelines>). Publication ready texts can have the following length:

- a) Long paper: 4,000-6,000 words, presented in 20 min plus 10 min for Q&A

- b) Short paper: 2,000-4,000 words, presented in 10 min plus 5 min for Q&A
- c) Poster/demo: 1,000-2,000 words, presented as an A1 academic poster in a poster exhibition.

2. Abstracts of 500-1500 words. Proposals are expected to indicate a preference between a) short, or b) poster/demo format for presentation. Approved abstracts will be published in a book of abstracts on the conference website.

Submission website

Submission must be made in the conference tool ConfTool at the following address:
<https://www.conftool.net/dhn2019/index.php?page=login>.

Questions can be mailed to dhn2019 at hum.ku.dk.

Important dates:

13 August 2018: first call for proposals

30 September 2018: deadline for submitting workshop/tutorial proposals

15 October 2018: acceptance of workshop/tutorials

~~21 October 2018: deadline for submitting papers~~

31 October 2018: extended deadline for submitting papers

8 January 2019: paper acceptance notification.

5 February 2019; submission of final version of accepted papers taking into account the comments made by the reviewers.

Program Committee

- Costanza Navarretta, University of Copenhagen (chair)
